

SOHO

Soho, small office home office, is a sleek table for smaller workplaces, at home or in the office. With its combination of rounded shapes and distinct lines, Soho is both expressive and elegant. Its frame in solid oak, table top in oak veneer or beige laminate and edging in solid oak enhance its quality and authenticity. As an option, there is an integrated drawer in the frame for smart storage, as well as a USB C socket located underneath the table top.
